SUBJECT: REPAYMENT SHARING RATIOS FOR FY 1984/85

This letter will provide you with the repayment sharing ratios for Fiscal Year 1984/85 to be used for reporting child support collections on the form CS 800. The sharing ratios are based on the actual AFDC expenditures for July 1983 through March 1984.

The federal sharing ratio is determined by taking actual federal expenditures for each aid category and dividing them by total expenditures for the same category. Once the federal share is determined, the amount remaining (non-federal share) is allocated to the state and counties. The percentages used to determine the state and county repayment sharing ratios are based on the respective amount of the state and county participation in the AFDC aid payment as provided for in Welfare and Institute Code Section 11487.

The repayment sharing ratios for July 1, 1984 through June 30, 1985 are as follows:

<u>Aid Category</u>	<u>Federal</u>	<u>State</u>	<u>County</u>
AFDC-FG	.4980	.4480	.0540
AFDC-U	.4950	.4504	.0546
AFDC and EA Foster Care (Federal)	.5000	.4750	.0250
AFDC Foster Care (Non-Federal)	.0000	.9500	.0500
EA-Unemployment	.5000	.4460	.0540

If you have any questions concerning this letter, contact your county representative in the Child Support Operations Bureau at (916) 322-6384.
